

**ASSEMBLY BILL**

**No. 332**

---

**Introduced by Assembly Member DeVore**  
**(Coauthors: Assembly Members Duvall, Huff, Mendoza, Silva,**  
**Solorio, Spitzer, Tran, and Walters)**

February 13, 2007

---

An act to amend Sections 11224 and 11225 of the Elections Code, relating to elections.

LEGISLATIVE COUNSEL'S DIGEST

AB 332, as introduced, DeVore. Elections: recall petitions: signature certification.

Under existing law, elections officials must determine the sufficiency of recall petitions with regard to the required number of valid signatures within 30 days from the date of filing the petition, as provided.

This bill would provide that Saturdays, Sundays, and holidays would be excluded in calculating the 30-day requirement of determining the sufficiency of a recall petition with regard to the number of valid signatures.

Vote: majority. Appropriation: no. Fiscal committee: no.  
State-mandated local program: no.

*The people of the State of California do enact as follows:*

- 1 SECTION 1. Section 11224 of the Elections Code is amended
- 2 to read:
- 3 11224. (a) Except as provided in Section 11225, within 30
- 4 days from the date of filing of the petition, *excluding Saturdays,*
- 5 *Sundays, and holidays,* the elections official shall examine the

1 petition, and from the records of registration, ascertain whether or  
2 not the petition is signed by the requisite number of voters. If the  
3 elections official's examination shows that the number of valid  
4 signatures is greater than the required number, the elections official  
5 shall certify the petition to be sufficient. If the number of valid  
6 signatures is less than the required number, the elections official  
7 shall certify the petition to be insufficient.

8 (b) In determining the number of valid signatures, the elections  
9 official may use the duplicate file of affidavits maintained, or may  
10 check the signatures against facsimiles of voters' signatures,  
11 provided that the method of preparing and displaying the facsimiles  
12 complies with law.

13 (c) The elections official shall attach to the petition a certificate  
14 showing the result of this examination, and shall notify the  
15 proponents of either the sufficiency or insufficiency of the petition.

16 (d) If the petition is found sufficient, the elections official shall  
17 certify the results of the examination to the governing board at its  
18 next regular meeting.

19 SEC. 2. Section 11225 of the Elections Code is amended to  
20 read:

21 11225. (a) Within 30 days from the date of filing of the  
22 petition, *excluding Saturdays, Sundays, and holidays*, if, from the  
23 examination of petitions pursuant to Section 11222, more than 500  
24 signatures have been signed on the petition, the elections official  
25 may use a random sampling technique for verification of signatures.  
26 The random sample of signatures to be verified shall be drawn in  
27 a manner so that every signature filed with the elections official  
28 shall have an equal opportunity to be included in the sample. The  
29 random sampling shall include an examination of at least 500 or  
30 5 percent of the signatures, whichever is greater.

31 (b) If the statistical sampling shows that the number of valid  
32 signatures is greater than 110 percent of the required number, the  
33 elections official shall certify the petition to be sufficient.

34 (c) If the statistical sampling shows that the number of valid  
35 signatures is within 90 to 110 percent of the number of signatures  
36 of qualified voters needed to declare the petition sufficient, the  
37 elections official shall examine and verify each signature filed. If  
38 the elections official's examination of each signature shows that  
39 the number of valid signatures is greater than the required number,  
40 the elections official shall certify the petition to be sufficient. If

1 the number of valid signatures is less than the required number,  
2 the elections official shall certify the petition to be insufficient.

3 (d) If the statistical sampling shows that the number of valid  
4 signatures is less than 90 percent of the required number, the  
5 elections official shall certify the petition to be insufficient.

6 (e) In determining from the records of registration the number  
7 of valid signatures signed on the petition, the elections official  
8 may use the duplicate file of affidavits maintained, or may check  
9 the signatures against facsimiles of voters' signatures, provided  
10 that the method of preparing and displaying the facsimiles complies  
11 with law.

12 (f) The elections official shall attach to the petition, a certificate  
13 showing the result of this examination, and shall notify the  
14 proponents of either the sufficiency or insufficiency of the petition.

15 (g) If the petition is found insufficient, no action shall be taken  
16 on the petition. However, the failure to secure sufficient signatures  
17 shall not preclude the filing later of an entirely new petition to the  
18 same effect.

19 (h) If the petition is found to be sufficient, the elections official  
20 shall certify the results of the examination to the governing body  
21 at its next regular meeting.
